Detailed description of the record(s) you are requesting: (Note - We will be better able to process your request if you clearly identify the record(s) you are seeking.)

I request information related to residual funds obtained from all DPSD schools for the last 8 years for capital projects such as the recent middle school renovation. The output financial report will reflect a high level summary of income and expenses for each year in a format that the general public can understand the resulting residual funds available. During each year, including the years \$850K were earmarked for the middle school renovations, I want to know how much each school's residuals were applied to capital projects. In essence, the financial trail will easily show how much each school contributed to the general fund that ultimately lead to the middle renovation and other capital projects in format the general public can understand.
